

# Going Darwin

Why self-evolution is the key to future success

Bill Sheridan, CAE  
Maryland Association of CPAs

~~"Survival of the fittest."~~

~~"It is not the strongest of the species that survives, nor the most intelligent that survives. It is the one that is most adaptable to change."~~

"The forms which stand in closest competition with those undergoing modification and improvement will naturally suffer most."

*"To kill an error is as good a service as, and sometimes even better than, the establishing of a new truth or fact."*

"The problem with quotes found on the Internet is that they are often not true."

— *Abraham Lincoln*

# ChatGPT bombs accounting class

By [Chris Gaetano](#)

April 24, 2023, 4:40 p.m. EDT

3 Min Read

After conquering the Wharton MBA, the bar exam, 13 of 15 AP courses and the GRE verbal test, ChatGPT finally met its Waterloo in the form of an accounting class. The AI chatbot did not merely do poorly either — with a score of 47.4%, it utterly bombed, not even getting a D grade.

ARTIFICIAL INTELLIGENCE

## TAX LOOPHOLES ABOUND, BUT AI COULD SHUT THEM DOWN

“Rather than wondering if your job will disappear, ask yourself, ‘What is the *new* job inside my old one?’ ”

— Mike Walsh, futurist,  
author, “*The Algorithmic Leader*”

# Did Amazon kill retail?

Amazon didn't kill the retail industry. They did it to themselves w/ bad customer service.

Netflix did not kill Blockbuster. They did it to themselves w/ ridiculous late fees.

Uber did not kill the taxi business. They did it to themselves by limiting # of taxis : w/ fare control.

Apple did not kill the music industry. They did it to themselves by forcing people to buy full length albums.

Air B&B did not kill the hotel industry. They did it to themselves by limited availability : pricing options.

Technology by itself is not the real disrupter...

Being non-customer centric is the biggest threat to any business.
